

60044**1/2" 1300NM BRUSHLESS IMPACT WRENCH****TECHNICAL SPECIFICATIONS**

Square measure	1/2"
Voltage	20V
Power	1000W
Max. tightening torque	1200Nm
Max. breaking torque (untightening)	1300Nm
Nominal speed	1000, 1350, 1600RPM
IPM Impulses	1000, 1600, 2000
Speeds	3
Compatible with	60012, 60013, 60015, 60016, 60017
Weight	3,20Kg
Dimensions (LxWxH)	214x90x217mm

**DETAILS**

New generation X-TorQ brushless motor. Allows you to work up to 2 times faster.

SPECIFICATION:

- New generation intelligent microprocessor, protects the tool from overloading and overheating at high ambient temperatures.
- Newly designed double hammer provides more IPM and less vibration.
- New socket clamping ring: faster socket change and more secure clamping.
- Calibrated tool balance and weight, for jobs requiring large socket dimensions and high torque levels.
- Screw loosening mode allows unscrewing of driven screws, with rear stop for easy nut removal.
- Newly designed batteries: provide longer working time on a single charge and extend battery life.
- Oversized hook useful for hanging the machine on metal structures or on the work belt.
- Wide angle LED helps improve visibility in low light conditions.
- New premium quality finish to withstand tougher jobs, protect tools in harsh environments and improve user comfort. Sturdy and durable aluminium housing with elastomer protected front end.
- 5 work modes with screw loosening mode, providing total control of the job.
- Variable speed on the trigger with reversible mode, allows to regulate screwdriving speed as required by the job.
